We reserve the right to change the shape, colour and design of machines in the interests of continued technical development.

Everything speaks for Hako:

Cleanliness with safety.

Hako machines adhere to strict quality regulations/standards - "Quality made by Hako". We also take care of what we sell - World-wide.

Sales, hire, leasing, rental.

With Hako, you can plan your capital expenditure on a completely individual basis. You can enter into short-term, medium-term or long-term agreements with regard to machine usage.

We are there for you day and night.

Round-the-clock service and express spare parts delivery - order today and have the parts tomorrow! So you can get on again as quickly as possible.

Close to you, wherever you are.

The unsurpassed close knit Hako sales and service network means we are always close at hand - a bonus when you need us. Convince yourself.

Hako-Hamster 600/700/780

Compact vacuum sweepers.

The Hako Hamster 600/700/780 machines are compact vacuum sweepers, which can be used in both industrial as well as commercial applications.

They offer:

- Very large dirt collection capacity thanks to the overhead throwing principle. As a result 100% of the hopper volume can be utilized.
- Optional environmentally-friendly battery drive for indoor use or a powerful petrol engine for outdoor applications.
- Extremely smooth handling and steering as a result of the ergonomically shaped handle bar for fatigue-free operation.
- Particularly cheap machine life costs e.g. as a result of the robust construction with non-rotting coated steel framework

and synthetic material cover, which is resistant to damage and shock-proof.

- Dirt and debris can be swept away cleanly and dust-free, close to walls. ①
- An optimum disposal system (hopper with "drawers") on the Hamster 780 - furthermore hop-

- Excellent sweeping performance on all types of floor - even on carpeted areas (option: carpet kit). ③
- Numerous application possibilities such as e.g. warehouses, workshops, dispatch areas or outdoor applications.

per on rollers with separate hopper inserts for quick, easy emptying - even suitable for heavy debris. ②

- Easy access to the important components for all maintenance and servicing. ④
- All operating elements are arranged within direct reach and view of the operator. ⑤
- Filter shaker device for long filter lifetime. ⑥
- Large, efficient, powerful filter system. ⑦
- The filter can be changed or cleaned quickly.
- Dust vacuum can be interrupted when sweeping areas, which are wet.
