Various sizes and performance classes.**

**Hako -
perfect
from product
to service.**

They swallow up all kinds of dust the Hako Supervac range.

Hako-Carpovac

Powerful upright brush vacuum for thorough, gentle carpet cleaning

Brushing and vacuuming in one operation – this means intensive, thorough yet gentle cleaning of carpeted floors. The Hako Carpovac brushes the carpet pile thoroughly, rapidly removes even stubborn dirt and ensures that an optimum cleaning result is achieved on carpeted areas subject to a lot of wear.

As a result of the integrated carrying handle at the centre of gravity of the machine, rollers and a low weight, transport is made easy, even when negotiating steps and stairs.

Hako-Supervac 100

"The" vacuum cleaner for maintenance cleaning. Ultra quiet!

Compact vacuum cleaner for use in hotels, offices and hospitals etc. Extremely quiet. Highly manoeuvrable and sturdy as a result of five castor wheels and low weight.

Robust quality – ideal for industrial use.

The suction performance can be adjusted directly at the handle (5 stages). This enables even curtains to be vacuumed without problem.

Optimum cleaning result – brush height infinitely variable with electronic adjustment and pressure control.

Multi-micro filter system to separate the smallest dust particles and biological dirt.

Comprehensive set of accessories as standard. Long vacuum filter hose (2,5 m). Suction hose in several parts consisting of synthetic material handle and 3 metal tubes. Various filters, as well as universal dust nozzle, upholstery tool, brushes and crevice tool.

Wet or dry vacuum cleaners –

Hako-Supervac 140/290/550

The range of vacuum cleaners for daily wet and dry cleaning.

Extremely handy, operator-friendly wet and dry vacuum cleaners. The compact build means that the machines are particularly stable.

Further advantages:
Four wheel chassis with steering castor wheels for easy manoeuvrability, impact-resistant synthetic material container, noise-reduced cooled vacuum motors.

Hako-Supervac 290 with floor nozzle for daily maintenance cleaning. Robust, quiet, professional.

Hako-Supervac 3000

High performance industrial vacuum cleaner for wet and dry cleaning.

The Hako-Supervac 3000 can cope with any application as a result of the powerful 3x1000 watt capacity. Whether dry vacuuming dust and wood shavings or even oily substances or simply vacuuming liquids – the Hako-Supervac 3000 is always the right choice.

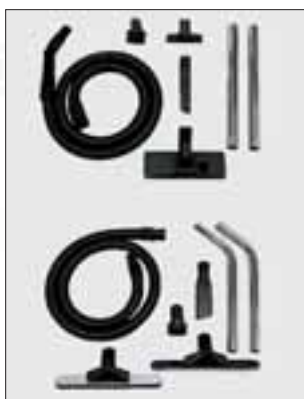

The cooled by-pass motors and indestructible tank made of chrome steel guarantee a long machine life.

Equipped as standard with numerous accessories for wet and dry cleaning. The vacuum hose is particularly large.

Hako-Supervac 550. Swallows everything in sight. Seen here being used as a wet vacuum in kitchen areas.

Comprehensive range of multi-purpose accessories for daily wet and dry cleaning depending upon the type of machine and application in question.

Further advantages:
Sturdy connections between suction head and tank, robust chassis with stable handle.

Handy drainage hose for easy emptying of liquids.

Performance and quality down to the very last detail.
