

# Hakomatic B 910. Powerful cleaning whilst comfortably seated. Up to 5.300 m<sup>2</sup> cleanliness/hour.

You want  
**better performance.**

## The Hakomatic B 910 can offer:

- Guaranteed powerful basic and maintenance cleaning: eg.: brush pressure can be adjusted up to 60 kg via a foot pedal for basic cleaning.
- A powerful, efficient pre-sweep unit to sweep up loose dirt in the dry area in front of the scrubbing brushes (optional equipment).
- A connection (fitted as standard) for hand-held scrubbing and vacuuming tools for thorough cleaning of corners and areas difficult to access.
- A powerful drive motor with power reserves for gradients of up to 10%.

You want  
**increased comfort.**

## The Hakomatic B 910 can offer:

- Comfortable work place. As a result of the compact construction, areas which were previously cleaned with a pedestrian operated machine can be cleaned whilst the operator is seated comfortably.
- Optimum view of the area to be cleaned thanks to the central position of the driver's seat.
- Extremely easy operation: the green Hakomatic button starts all working functions at the push of a single button.
- The "Hako Control System": the machine is programmed by our engineers according to your specific requirements (eg.: brushes and water supply stop when machine comes to a standstill).

You want  
**greater economy.**

## The Hakomatic B 910 can offer:

- A saving up to 50% of water and cleaning agents by means of the Hako Aqua-Stop System. Tested and approved. This saving when calculated over the machine lifetime corresponds to the initial cost of purchase.
- Electronic malfunction diagnostic system for considerable cost savings in terms of service and maintenance.
- Savings of up to 40% with the use of pre-sweep unit as there is no need to use an additional vacuum sweeper.
- Increased productivity when compared with pedestrian operated machines.

**Hakomatic B 910:** For perfect maintenance or basic cleaning. Highly manoeuvrable, compact, easy, light handling, powerful and efficient.

**With pre-sweep and tool:** Pre-sweeping and scrubbing in one operation, additional scrubbing and vacuuming tool for edges and corners.

# Economical, convenient, quick and safe: the advantages at a glance.

**Cockpit:** The operator can access the cockpit from both sides with an excellent view of the area to be cleaned. All operating elements are in direct view and easy reach of the operator. Adjustable, comfortable driver's seat.

**Operating panel:** All cleaning functions can be started simultaneously. Quick and easy.

**Batteries:** Battery system easy to access with quick exchange device (optional equipment).

**Working close to the edge:** Poses no problem with protruding brushes and suspended squeegee.

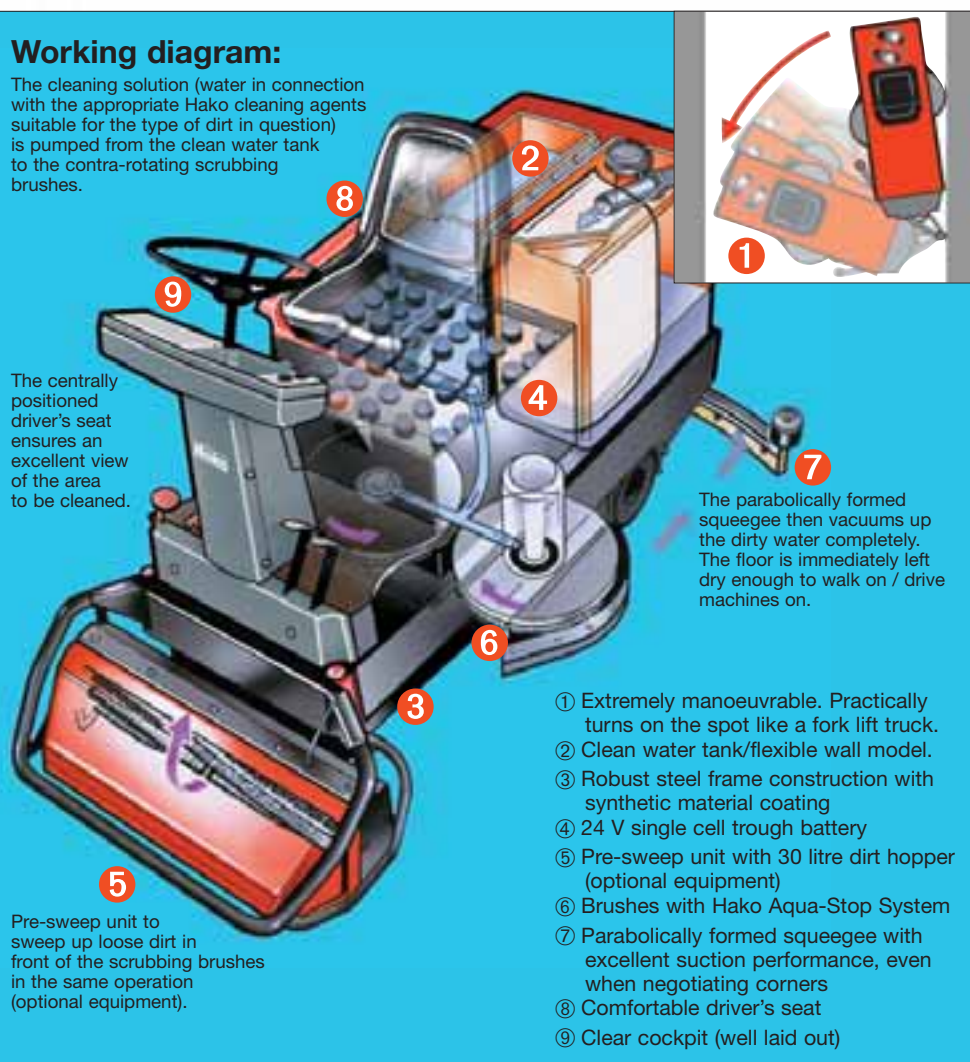

**Tool:** Scrubbing and vacuuming tool available as an accessory for the cleaning of edges and corners.

## Working diagram:

The cleaning solution (water in connection with the appropriate Hako cleaning agents suitable for the type of dirt in question) is pumped from the clean water tank to the contra-rotating scrubbing brushes.

The centrally positioned driver's seat ensures an excellent view of the area to be cleaned.

The parabolically formed squeegee then vacuums up the dirty water completely. The floor is immediately left dry enough to walk on / drive machines on.

- ① Extremely manoeuvrable. Practically turns on the spot like a fork lift truck.
- ② Clean water tank/flexible wall model.
- ③ Robust steel frame construction with synthetic material coating
- ④ 24 V single cell trough battery
- ⑤ Pre-sweep unit with 30 litre dirt hopper (optional equipment)
- ⑥ Brushes with Hako Aqua-Stop System
- ⑦ Parabolically formed squeegee with excellent suction performance, even when negotiating corners
- ⑧ Comfortable driver's seat
- ⑨ Clear cockpit (well laid out)

**Tank:** Large flexible wall tank, 140 litres. Outlet hoses with dosage device for quick emptying.

**Brushes:** Brushes and pads can be changed in a flash without the use of tools.

**Compact and manoeuvrable:** Fits for e.g. through any standard door. Minimum passing width of 70 cm.

# Performance and quality down to the very last detail.

## Technical Data Hakomatic B 910

Working width:	cm	88	Capacity: brush motor	W	820
Effective suction width standard (option)	cm	110 (96)	Capacity: vacuum motor	W	550
Area performance, up to	m <sup>2</sup> /h	5.300	Number of brushes	pieces	2
Working speed, up to	km/h	6	Brush diameter	cm	46
Running time, up to	h	4	Brush speed (revolutions)	rpm	240
Rated voltage	V	24	Brush pressure, up to	kg	60
Protection class (VDE 0700-72)		III	Specific brush pressure	N/cm <sup>2</sup>	0,25
Air flow, vacuum	m <sup>3</sup> /h	118	Flexible wall tank	litres	140
Vacuum pressure	mbar	170	Climbing ability, ready for operation %		10
Capacity: drive motor	W	820	Specific wheel pressure front/rear N/mm <sup>2</sup>		0,44/0,62
<b>Dimensions:</b>					
Length with squeegee	cm	191	Total length (incl. pre-sweep unit)	cm	237
Width with/without squeegee (option)	cm	93/110 (96)	Height above driver's seat	cm	137
Weight, empty without batteries	kg	350	Total weight, ready for operation	kg	750
 <p>The Hakomatic B 910 offers the highest product quality and long lifetime as a result of modern manufacturing processes and a strict quality assurance system. The Hakomatic B 910 has been manufactured in accordance with the CE guidelines and fulfils the European safety norm EN 60 335.</p>					
In the interest of technical progress we reserve the rights to alter equipment without prior notice.					

## Hako is the right partner:

**Cleanliness with safety**  
Hako machines adhere to strict quality regulations/standards. Quality made by Hako. We also take care of what we sell – world-wide.

**Sales, hire, leasing, rental**  
Hako allows you to individually plan capital investments depending upon customer's demands and the available means.

**We are there for you day and night**  
Reliable after-sales service and excellent logistics guarantee that machines can be ready for operation around the clock.

**Hako is never far away**  
The efficient Hako sales and service network means that Hako is always close at hand.
