

Superior technology  
for contract cleaning

## Scrubber-drier Hakomatic E 350

**NEW!**

**Wet scrubbing and dry cleaning in one single operation.  
Handy, multi-purpose and ideal even for narrow spaces.**

### Advantages of the Hakomatic E 350

- Compact, robust, handy.
- Reduced underclearance required (working below tables etc.)
- Small space required for transport and storing due to contour-adapted and foldable operating handlebar.
- Perfect results at edges due to projecting brush head. This avoids intensive re-working
- Twin cylinder for optimum cleaning of structured floors and joints.
- Easy and quick cylinder brush replacement.
- Optimal taking-in of the dirt especially in border areas due to squeegee automatism for forward/reverse ride.
- Removable water tanks allow easy filling and emptying.
- tairs and borders can be easily surmounted due to the wheel geometry (wheel Ø = 175mm).

### Technische Daten

### Hakomatic E 350

Working width	mm	350
Effective suction width	mm	450
Theoretical area performance up to	m <sup>2</sup> /h	1400
Nominal voltage	V/Hz	230/50
Capacity brush motor	W	600
Pressure	mm/WS	1860
Number of brushes	Stck.	2
Brush revolutions	1/min	650
Brush pressure	kg	21,5
Brush diameter	mm	100
Tank volume, soiled/fresh water	l	10/11
Sound pressure level	dbA	73
Transport dimensions (l/w/h)	cm	68/47/55
Empty weight	kg	43
Weight, ready for operation	kg	53
